*"I describe my music as spirited, positive, uplifting, heartfelt and rockin', but lyrical as well. I find people's journey in life is seldom linear, quiet, or easy, so I try to write in a way that will give hope or a new perspective on how to journey on to their best existence."* – Jennifer Rose

Although I am a classically trained vocalist who has performed & recorded in a dozen different genres, I love Rock! Rock comes with a different attitude than other genres. Rock represents strength, an attitude that says, "I live my life for ME, on MY own terms. As a female artist it is important to me that I write songs that appeal to both sexes and that I write with a strong opinion & stance.

*"From a very early age music was everything to me. I cared about nothing else so deeply. It was more than just a way for me to express myself whenever I was happy, sad, lonely, love struck, angry, etc. I never thought about fame, only how amazing it would be to make my whole world about music."*

Before embarking on a solo career of original music, Jennifer performed live in cover and tribute bands at casinos, L.A. County Fair, Hollywood Bowl, Clubs, various industry shows in L.A. including on Paramount Studios lot, Sunset strip, as well as a short tour in Toronto, Canada. Jennifer also recorded in numerous genres for a variety of L.A. producers as a singer-for-hire.

As a solo artist Jennifer Rose wrote the lyrics and melodies and used her life's savings to record her first full length CD "Alone & Unsupervised". Through self-promotion & perseverance, the songs played on more than 50 radio stations in the USA, Canada, UK, Europe, Japan, Indonesia and South America.

Following her full length CD, Jennifer recorded seven singles with Sony Producer Mikal Blue (Colbie Caillat, Jason Reeves, Jason Mraz, Five for Fighting, OneRepublic), three demo singles (not released to radio) and the most current song with UK producer Iain MacDonald. Over 70 radio stations in several countries have now played Jennifer Rose's professionally produced songs.
